

Abstract**Mounting Arrangement (Fig. 1)**

5 A mounting arrangement (26) is provided for mounting
an engine (10), typically a gas turbine engine, to a
vehicle. The mounting arrangement (26) includes connecting
means (28, 30) constructed to extend from a core assembly
(14) of the engine (10) through an outer component (24) to
10 the vehicle. The mounting arrangement (26) also includes
transmission means (41) extending from the connecting means
(28, 30) to transmit thrust from the engine (10) to the
vehicle.
